Light 8.0 English Astrology Software patch Parashara's Light 8.0 English Astrology Software Question, Greetings and thanks  
for any help. A: It looks like your original question (before it was edited to remove the image) was pretty cut-and-dry. Basically,  
you have a retail copy of the software on a CD, and it's missing a patch. You don't say what version of Parashara's Light you  
have, so it's hard to give a definitive answer. But if you know what version of Parashara's Light you have, you can run  
Parashara's Light and see if you get a message. If you do, you can follow the instructions in the message to download a patch. If  
you don't, you'll have to re-install the software. 1. Field of the Invention The present invention relates generally to a document  
processing apparatus, and particularly to a document processing apparatus, such as a copier or a printer, which has a  
Sorter/Folder function for sorting documents that are copied or printed. 2. Description of the Related Art In a conventional  
copier or printer, the print image of a document is transferred to an intermediate transfer member, and then, the toner image on  
the intermediate transfer member is transferred to the recording medium to form a fixed image. Thereafter, the recording  
medium with the fixed image is discharged to a tray. Recently, a document processing apparatus which is equipped with a  
Sorter/Folder function for sorting or filing the documents has been put to practical use. With the Sorter/Folder function, the  
recording mediums (the paper sheets, for example) to which the toner images have been transferred are stored in a tray. A user  
then takes out the document(s) he/she desires from the tray one by one and files them on a storage tray or a storage tray and a  
desired storage destination of the documents are determined. As described above
