Click on the name of Photoshop Web to jump into the Web-based app. A Different Type of Camera If you know Photoshop, the world will feel completely different. Simply take a picture with the camera in Live View, take a second picture without Live View, and then blend the two pictures together in Photoshop. If you know Photoshop, the world will feel completely different. Add a New Layer To create a new layer, select the Rectangular Marquee Tool (M) and then place the tool over a portion of the photo that will become an entirely new element in the picture. Add Text To add text to an image, simply click on the text box in the middle of the screen, then start typing a text with the text box active. Select the style that you like and make the text larger or smaller by dragging the corner of the text box in the direction that you would like the text to appear. Adjust Text Size By highlighting the text box, you can make the font size larger or smaller, along with the text in the text box. Text larger or smaller can be used to emphasize an element of a picture, or make the text appear lighter or darker. Click and Drag To move an image in Photoshop, click and drag the image around. To resize an image, click and drag on the image to enlarge the image or drag on the corners of the image to reduce the image. Create a New Layer Using the Rectangular Marquee Tool (M), select an area of an image you want to be used as a new layer, and click the Layer icon at the bottom of the Layers panel. A new layer is created, which can be edited to create new layers. Choose A Brush To change the brush or
