Full-text (PDF): Full-text (PDF): Full-text (PDF): Full-text (PDF): In general, and in the field of digital compositing, compositing is a general term for masking unwanted elements of an image (or video) from the final view of the resulting image or video. The terms compositing and masking are often used in the same sense by digital compositors. A mask may be thought of as a second (or primary) image that is later composited into the final image or video. The Lumion camera consists of a head (lens), the projector, the microphone and driver hardware. This initial solution is for wired connection between the camera and projector. Driver software with the camera allows 2-way communication via a serial port. The included wireless version is not normally used for local communication. It normally is connected via a wireless bridge (sold separately). The Lumion camera is designed for indoor use only, and it cannot be used as a webcam. According to our data, most Lumion users work in architectural visualization, video games, and product and brand design. The Lumion SDK comes in 4 different versions, each providing specific features that meet different user needs. See my Lumion 10.2 summary for a complete overview. The Lumion application comes with a content library for your asset source images, as well as an asset library for
