All My Movies 2022 Crack is a software application that enables you to keep track of your favorite movies in a simple-to-use database. The interface is clean and intuitive, made from one window with a straightforward layout. You can add a movie by its title, a DVD or Blu-ray video (optionally from the bar code) or from file. Add movies and movie information In addition, you can edit text fields (e.g. title, actors), add covers, capture and add screenshots, as well as print the movie card or selection. Furthermore, you can sort movies by title, original title, rating, date added or movie number, group them (e.g. media label, year, director), view a title list and cover thumbnails. But you can also view a wishlist, loans, unseen, overdue, series and new shows or movies. Plus, you can set up marks for a favorite list and manage advanced filters for the current database. Review and export movie details to file Moreover, you can access directories (names, friends, media locations, countries, genre, media types), as well as search for movies and bar codes, generate a playlist, suggest a movie, view statistics, export data (to HTML, CHM, plain text, Excel, PDF, image and mobile device), import information (from CSV or Excel), scan the drive for movies, update iMDB details, and more. In the "Preferences" menu, you can set All My Movies Crack Keygen to check for updates weekly, compress the database on exit, enable automatic backup, use a batch capture function, change the interface skin and language, select the online databases to get usable information from, and others. Easy-to-use movie manager The software tool uses a moderate-to-high amount of system resources and includes a comprehensive help file with images. No errors have popped up during our tests. However, when you want to add a movie by title, you simply have to write its original title, hit the "search" button and All My Movies will do the rest. But if you immediately search for another title, the rest of the fields (e.g. director, scenario) retain the information of the first movie you have searched. You have to cancel this window and pop it up again to fix this issue. All in all, All My Movies is a very good software for maintaining your personal movie database and we strongly recommend it to all users. Program
